Solar power baby

Overview

What is solar-powered portable infant incubator?

This project entitled, Solar-Powered Portable Infant Incubator, aims to design and build an infant incubator that is cost-effective and efficient to meet the clinical needs at the hospitals here in the country. It has the same functions as the regular incubator like controlling temperature precisely, humidification system, and oxygenation.

What is solar power?

“Solar Power,” written and produced by myself and Jack, is the first of the rays. It’s about that infectious, flirtatious summer energy that takes hold of us all, come June (or December, if you’re a Southern Hemisphere baby like me but I know that’s literally IMPOSSIBLE for you all to wrap your little heads around so don’t worry about it!!).

What is the lux value of solar-powered portable infant incubator?

This research utilizes experimental method in conducting the trials and calibration of the device. The developed Solar-Powered Portable Infant Incubator has a lux value for the LED (Blue) 70 (1m/m²); Quantum Flux = 7 (μ/mol)/DR; Spectrometer reading of 400-534 Å (nm).

What is a solar incubator & how does it work?

It has the same functions as the regular incubator like controlling temperature precisely, humidification system, and oxygenation. The project will use commercially used electronic materials. It has a solar panel so that it can still be used in remote areas.

Solar power really is ??168????????,????????????,1

68??????????+1??????168??????

-  **Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 500V
 - 95% Peak Output Power
 - 2 MPPT Stages, 150% DC Input Overvoltage
 - Max. PV Input Current 10A, Compatible with High Power Modules
-  **Intelligent Simple O&M**
 - IP66 Protection Degree support outdoor installation
 - Smart I-V Curve Diagnosis Function, locate PV string faults accurately and automatically detect faults
 - DC & AC Type-II SPD, prevent lightning damage
 - Battery Reverse Connection Protection
-  **Flexible Abundant Configuration**
 - Plug & Play, EPS Switching Under 10ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
