Solar power user feedback

Overview

Does Consumer Reports review solar companies or solar panels?

Unfortunately, Consumer Reports doesn't review solar companies or solar panels. If you are inspired to investigate solar power systems, you'll need trustworthy sources to help you make informed decisions.

What are solar company reviews?

Solar company reviews focus on the installation companies that provide services to residential clients. These reviews talk about customer service, quality of workmanship, and general client experience. Use these to decide which local installation company to choose for your home solar project. Solar panel reviews concentrate on the equipment.

Does SunPower cover solar panels?

However, the smartphone and computer you use to monitor your solar panel production aren't covered. SunPower also guarantees your solar panels won't lose more than 10% of their original power output in that 25-year period, which ensures your solar energy system stays efficient and produces the solar power your home needs.

Does SunPower have a monitoring system?

Yes, the SunPower Monitoring System (EnergyLink) gathers real-time data to help you track your energy production and usage. The solar company also offers an optional consumption meter that monitors your energy usage and compares it with the amount you produce. Does SunPower provide energy storage?

.

What can I do with my SunPower app?

The mySunPower app lets you monitor your system, see your energy savings,

contact customer service, pay your bill and adjust settings to meet your energy needs. You can also select from three different storage modes for your SunVault system. What happens to my SunPower solar panels if I sell my home?

.

What is the SunPower monitoring system (EnergyLink)?

Once your system is up and running, the SunPower Monitoring System (EnergyLink) gathers data to help you monitor and track your estimated bill savings. If you need help with anything, you can contact SunPower customer support Monday through Saturday. SunPower's solar portfolio includes M-Series, X-Series and U-Series panels.
