UAE-Caribbean Renewable Energy Fund Unveils Resilient

The Green Barbuda project aligns with Antigua and Barbuda's goal to meet 86 percent of its electricity sources from renewable energy by 2030. The bespoke project combines a hybrid solar photovoltaic (PV) plant with 720 kWp of solar PV panels connected to an 863 kWh battery, capable of meeting the island's current daytime energy demand.

Home Solar System with Battery Storage and Antigua and Barbuda

In recent years, there has been a growing interest in home solar systems with battery storage as a sustainable energy solution. These systems allow homeowners to generate their own electricity using solar panels and store the excess energy in batteries for later use. This not only reduces reliance on traditional power grids but also helps
