

European Solar and Energy Storage Solutions

Solar system company name Christmas Island

Overview

Small scale solar for the local community. We installed small scale solar power systems across the islands to start the transition to a clean, sustainable future for local communities.

Small scale solar for the local community. We installed small scale solar power systems across the islands to start the transition to a clean, sustainable future for local communities.

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Unlimited Energy Australia custom designed a solar renewable energy solution providing reliable, consistent energy to run the cool room for 24 hours and provide surplus energy for power tools, seed processing machines and lighting. The solution is comprised of: 11,7 kW solar installation and 14.4kWh Tesvolt battery system.

Solar Power on Christmas Island. Our ambition is to help lead Christmas Island towards a sustainable future based on renewable energy. PRL Group have committed towards rooftop solar for all its owned properties on the island, and the design and development of a large-scale solar energy system for Christmas Island.

Our services includes solar and battery projects, commercial and industrial electrical installations and maintenance, emergency backup power systems, civil works, trenching, and excavation, service location and survey, and assistance with other infrastructure projects including fibre optic and communications for government agencies. Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide

clean power to their main headquarters and research field station.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.
