Papua New Guinea National Energy Access Transformation Project

The Papua New Guinea National Energy Access Transformation Project (NEAT or the 'Project') will be financed by the World Bank and implemented by the National Energy Authority (NEA) and PNG Power Limited (PPL). The project will support the GoPNG in achieving its energy access target through investments in on-grid electrification, sustainable

Papua New Guinea a leader in off-grid solar lighting

"Solar lighting represents only the first step in access for people to energy, so the high penetration of solar lighting is a significant move in a country where only 13% of people are connected to an electricity grid." Seven years ago, most homes in Papua New Guinea relied on firewood, kerosene and other products for lighting needs

How Solar Pay-As-You-Go Energy Is Helping Papua New

...

In Papua New Guinea (PNG) over 80% of the population don't have access to grid electricity. Since launching they have supplied 3,100 customers with pay-as-you-go, or PAYGO, solar power kits to light up homes and small businesses. The kits contain solar panels, lights, a mobile charging bank and a torch or radio.
