

## European Solar and Energy Storage Solutions

# Solar system za Estonia

## Overview

---

What is Solarstone doing in Estonia?

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs as Tesla in the U.S. The factory can assemble 13,000 integrated solar panels per month.

Are solar panels a good investment in Estonia?

Solar panels are a great possibility for investment, which ensures a steady future for decades. Is there really enough sun in Estonia?

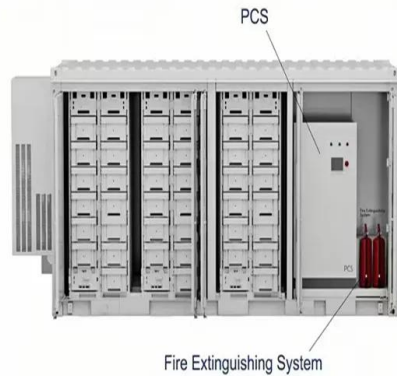

Solar energy is the only renewable, free of charge and inexhaustible form of energy. Every day more sunshine reaches the earth that we take advantage of.

Why did Solarstone start in Viljandi?

„All three Solarstone founders were either living in Viljandi or had a very close relation to this town, hence the decision was born to also kickstart the business in here and build lasting roofing systems that look pleasant to the naked eye,” Silver Aednik, company’s managing director and co-founder says.
