Spain solar equipment near me

Overview

Where can I install solar panels in Spain?

For 8 years, we have been providing solar panels and kits and their installation throughout Spain, including Madrid, Barcelona, Valencia and other provinces. We take care of all the paperwork and approvals required for solar installations. Contact us today for a free calculation or project for your solar system.

Which latitude is best for solar panels in Spain?

Spain lies between 36° and 43° north latitude. This affects the efficiency of solar panels. The closer to the equator, the more solar energy there is. That's why we adjust the tilt and orientation of the panels to suit the location.

How are solar panels transforming the landscape in Spain?

Join us on our journey towards a more sustainable tomorrow. In the sun-drenched south of Spain, solar panels are transforming the landscape and fostering energy independence. With abundant sunlight year-round, residents and businesses are harnessing solar power to reduce reliance on traditional energy sources.

Are you happy with the solar hot water system in Spain?

All homeowners in Spain can now generate as much energy as they like, and receive credit towards their bill for what they don't use! Many thanks for the installation of our solar hot water system. We are very happy with the system,

the people who fitted it were very good, removing the old system and quickly putting in the new system.

Why should you choose solar power in Spain?

This means that Spain has more potential to generate solar power and save on electricity bills. We also take into account the number of sunny days in your particular city, as this affects the reliability and consistency of solar power.
