

## European Solar and Energy Storage Solutions

# Speech at the New Energy Storage Conference

## Overview

---

What to expect at the 2022 energy storage industry conference?

During the conference, a series of activities such as the "2022 Annual Energy Storage Industry Application Research Report" and "China Energy Storage Industry Innovation Development White Paper" will be arranged.

Why should you attend the energy storage global conference?

This edition of the Energy Storage Global Conference provided valuable insights on energy storage and showcased itself as a leading event for the industry giving access to current knowledge and important contacts in the field.

What happened at the National Energy Storage Summit 2022?

Published on April 28, 2022 by Ruby Barcklay. 1,520 attendees. 104 speakers. Live endorsement by the Secretary of Energy. A livestream from space. By all measures, the National Energy Storage Summit, led by Berkeley Lab on March 8-9, was a resounding success. Such an endeavor was the work of many hands over many months.

What is China International Energy Storage Conference?

Since it was held in 2011, the China International Energy Storage Conference has promoted the multi-party cooperation in the energy storage field to exceed 30 billion yuan in order to stabilize the value of the industrial chain and supply chain platform.

What is Berkeley Lab's new energy storage center?

A brainchild of Lab Director Mike Witherell last spring, the intent was to reinforce Berkeley Lab's role as a serious national energy storage player, highlight the Lab's new Energy Storage Center which was established in the fall of 2020, and shine a spotlight on the depth and breadth of exciting energy storage work taking place at the Lab.

What is the future of energy storage?

Households and businesses also feature heavily in forecasts around energy storage. Of the 46 GW of dispatchable storage required by 2050, about one-third – 16 GW – will come from utility-scale batteries and pumped hydro. The remaining two-thirds – 31 GW – will come from virtual power plants, vehicle-to-grid and other distributed technologies.

## Speech at the New Energy Storage Conference

---

### World Power Battery Conference , United Nations in

...

Here, the United Nations Country Team in China works closely to assist the Government of China, in following the release of the new "1+N" climate policy. 40% of all new vehicles in China will be powered by new energy, and ...

### Opening Remarks at the 10th International Forum for Energy in

The cost curve for technologies like wind, solar and energy storage continues to drop. Both governments and the private sector will play pivotal roles in financing and deploying ...

### SNEC 10th (2025) International Energy Storage & Battery ...

The conference focuses on new energy storage technologies and applications (such as solid-state batteries, sodium-ion batteries, flow batteries, compressed-air energy storage, pumped ...

### Zhu Gongshan: Energy Storage is the "Ballast" of the New Electric ...

The conference invites government leaders, international organization heads, academic experts, and industry leaders to discuss policy direction, cutting-edge technology, ...
