3.3kW Solar Panel Capacity 3 kW Solar power Inverter 360-450 kWh Monthly Generation System price starting from Rs. 750,000.

Hayleys Solar, the renewable energy arm of Hayleys Fentons, is one of the most trusted service providers for solar power in Sri Lanka, specialising in renewable energy and energy storage solutions for domestic, commercial and industrial requirements. How much does a solar system cost in Sri Lanka?

Residential solar installations in Sri Lanka typically start at around 500,000 LKR to 750,000 LKR for basic setups. With a budget of 500,000 LKR, you can generally expect a solar system producing approximately 2 kW to 3 kW of power. If you have a budget of 750,000 LKR, the system size might range from about 3 kW to 5 kW.

How many solar panels for sale in Sri Lanka?

online on ikman, the largest marketplace in Sri Lanka!.

How does a solar system work in Sri Lanka?

Solar Panels: These are the most visible components of a solar system. Solar panels convert sunlight into direct current (DC) electricity. The efficiency of these panels can vary, but in Sri Lanka, with its average solar irradiation of around 4.5 to 5.5 sun hours per day, solar panels can generate significant amounts of electricity.

Are residential solar systems a viable solution in Sri Lanka?

As energy costs continue to rise and concerns about environmental sustainability grow, many homeowners in Sri Lanka consider residential solar systems as a viable solution. A well-designed solar power system can significantly reduce electricity bills, contribute to environmental sustainability, and even provide a backup power source during outages.

Why should you choose a residential solar system in Sri Lanka?

Adopting a residential solar system in Sri Lanka can lead to substantial savings on electricity bills, enhance energy security, and contribute to environmental sustainability. Whether opting for an on-grid, off-grid, or hybrid system, working with certified professionals is crucial to ensure a properly designed and installed system.

How long does a solar installation last in Sri Lanka?

The payback period for industrial solar installations in Sri Lanka typically ranges from 3 to 4 years. Efficient project designs and use of high-quality components contribute to favorable ROI. The upfront costs for a factory-sized solar installation can be significant.
