Overview

What is STB Giga inauguration at Filinvest Innovation Park – New Clark City?

Filinvest: StB Group: The StB GIGA Factory inauguration at Filinvest Innovation Park – New Clark City marks the dawn of a new era in sustainable energy and industrial development in the Philippines, setting the stage for the country to lead the charge in EV and clean energy technology across Southeast Asia and beyond.

What is STB Giga Factory?

“StB Giga Factory is positioned to capture the once-in-a-century transition towards a renewable energy electricity system, in which LFP batteries are expected to play a pivotal role,” St Baker said in a statement on Tuesday.

Who is STB Giga?

StB Giga is the first LFP battery factory in the Philippines, providing our customers with the most reliable products at the best price-point possible. We are thrilled to announce that our Omni 215 has been awarded Outstanding Innovation in Energy Storage Systems during Solar Week Vietnam 2024!.

How many home battery systems does STB Giga make a year?

The StB Giga Factory has started making the equivalent of about 30,000 lithium iron phosphate home battery systems a year, with plans to scale that to 2GWh a year by 2030.

What is a Giga Factory – New Clark City?

The inauguration of the StB GIGA Factory not only constitutes a significant leap for renewable energy in the Philippines but also marks the emergence of Filinvest Innovation Park – New Clark City as a leading industrial hub.
