Where do Brazil's solar panels come from?

Dornellas says almost all of Brazil's photovoltaic modules and inverters (which convert solar energy for use in electronic devices) are bought from Chinese companies.

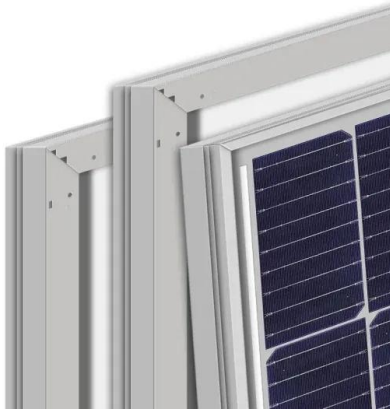

Is Brazil a good producer of solar energy?

Just three years ago, Brazil did not feature among the world's top producers of solar energy, but by 2023 it had risen to sixth place in the rankings. The pace of growth has been notable: since 2022, the country has added, on average, roughly one gigawatt of solar capacity every month.

Why is Scatec investing in Brazil?

Brazil is one of our core markets, and we will continue to seek opportunities and push the green transition forward,” says Scatec CEO Terje Pilskog. Scatec will have a 100% ownership stake in the solar plant, with the aim to bring on equity partners once commercial operation is reached to enhance value creation.

THAT CUSTOMERS OUTSIDE LAGOS WILL BE CHARGED FOR PACKING CASE TO PROVIDE ADDITIONAL SAFETY DURING THE DELIVERY OF SOLAR PANELS.

Solar power is booming in Brazil. Can it be a boom for all?

In recent years, solar panels have been exempted from import taxes in Brazil - a subsidy that was revoked this year, as a 10.8% tax was introduced. The exemption had helped to make solar equipment cheaper to source from China than domestically, and contributed to Brazil emerging as the second-largest importer of Chinese solar panels.
