Recommended 48V100AH? : r/SolarDIY

For USD \$600: Huawei SmartLi-48100B1 (48V100Ah = 4.8KWh) For USD \$700: Huawei ESM-48100B1 (48V100Ah = 4.8KWh) I honestly don't know the differences between SmartLi and ESM. I know in fact that the ESM one is LiFePO4 because I have one working in my inverter right now, after +2 years still beautiful. Do you know cheaper or better alternatives?
