Shell and Petronas Push Offshore Energy Projects in Suriname

1 ??· Positioning Suriname as an Energy Leader. Suriname's proximity to the resource-rich Guyana-Suriname Basin adds to its strategic significance. Neighboring projects like the Stabroek Block in Guyana, operated by ExxonMobil, already produce over 600,000 barrels per day, showcasing the region's capacity to meet rising global energy demands.

Seizing Suriname's potential

Nooriana Seerattan, then-general manager for Trinidad and Tobago of Blue Water Shipping (BWS), talks to The Energy Year about deploying digital technology to help clients achieve their net-zero goals and how the company is reducing its own emissions.

Energie Autoriteit Suriname

(EAS)

The Energy Authority of Suriname (EAS) is an autonomous institution, established by the Act of March 10, 2016 (State decree 2016 no. 41). The EAS performs supervisory and steering tasks and duties aimed at establishing and promoting optimal availability, affordability and sustainability in the energy sector of Suriname.

Suriname

It also includes non-energy uses of energy products, such as fossil fuels used to make chemicals. Some of the energy found in primary sources is lost when converting them to useable final products, especially electricity. As a result, the breakdown of final consumption can look very different from that of the primary energy supply (TES).
