Tangent energy Niger

Overview

Who is tangent energy?

Headquartered in Kennett Square, Pennsylvania, Tangent Energy provides customers with turnkey solutions for reducing energy costs, increasing energy efficiency, reducing emissions, monetizing electric grid support and providing resiliency for customer operations.

Who owns Tangent Energy Solutions?

DEERFIELD, IL – Caterpillar Inc. (NYSE: CAT) has acquired Tangent Energy Solutions, a U.S.-based energy-as-a-service (EaaS) company.

Why did Caterpillar buy Tangent Energy Solutions?

DEERFIELD, IL - Caterpillar Inc. today announced the purchase of Tangent Energy Solutions, an energy-as-a-service (EaaS) company that provides customers with turnkey solutions for reducing energy costs, increasing energy efficiency, reducing emissions, monetizing electric grid support, and providing resiliency for customer operations.

What is tangent energy DERMs?

Tangent Energy's proprietary software solution is a proven DERMS platform that monitors, manages and monetizes on-site energy assets, including natural gas and renewable power generation, storage and microgrids.

How is energy used in Niger?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

How can Niger balance its energy mix?

This transformative project, funded by the World Bank through the

International Development Association (IDA), will enable Niger to better balance its energy mix, which is currently largely dominated by thermal energy. This initiative is particularly crucial for a country that frequently faces climatic shocks.

A link to the full article is provided at the end of this excerpt. The 2017 Grid Edge Awards: Projects Defining the Future Integrated, Interactive Electric Grid

About Us , Energy as a Service

Tangent Energy ® is an Energy as a Service (EaaS) company that elevates the ability of energy providers and customers alike to monitor, manage, and monetize distributed energy resource (DER) systems. Tangent Energy provides all components required for a successful EaaS solution.

Niger's data-driven energy transition boosts climate action

It highlights how data analysis informed policy decisions for renewable energy, improved cookstoves, and rural electrification, considering both greenhouse gas reduction and socio-economic benefits. Learn how Niger's data-driven approach empowers them to track progress, fulfill international commitments, and inspire other developing nations.

Niger: Energy Country Profile

Niger: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
