Overview

With the new prices, Tesla's "Small" system costs \$2.44 per watt, "Medium" is \$1.95 per watt, and "Large" and "Extra Large" are \$1.93 per watt and \$1.84 per watt, respectively. Is a Tesla Solar Roof worth the price?

The bottom line is that the Tesla Solar Roof is more expensive than a regular roof and is also more expensive than a traditional solar panel system combined with a new roof. But, there are several factors to consider when deciding if the Tesla Solar Roof is worth the price. First, you must decide if you want to own or lease your solar system.

What are Tesla Solar Roof tiles?

The solar roof tiles are where Tesla differentiates itself with a unique product in the solar industry. Again, it's not for everyone. It addresses the market of people who want residential solar power and also need a new roof relatively soon.

How much does a Tesla Solar panel cost?

On the other hand, a 6.14 kW traditional Tesla solar panel system would cost around \$17,000, roof tear-off is about \$1,000, and roof replacement is approximately \$12,000. However, if you have a good asphalt shingle roof and don't need a new one, your costs will just be \$17,000 for the solar panel system.

Are Tesla Solar Roof tiles more efficient than standard solar panels?

Tesla's solar roof tiles are likely about 20 to 30 percent less efficient than standard solar panels. Tesla Solar Roofs are becoming less widely available across the country - even if you live in an area where it's available, you may see long delays in the installation process or even have your project canceled.

How many solar roofs does Tesla install?

Our in-house team of energy professionals has installed nearly 4.0 GW of solar across approximately 480,000 roofs—cumulatively generating over 25.0 TWhs of clean energy. From design to power on, we take care of everything. Chat with a Tesla Advisor to ask any questions about Solar Roof.

How much does a solar roof cost?

Unlike traditional solar panels, the Solar Roof replaces your entire roof with energy-generating tiles. Pricing for Tesla's Solar Roof is higher than traditional solar panels, ranging from \$30,000 to \$70,000, depending on your roof size and complexity. Solar Roof hasn't lived up to its promises yet, and Tesla's deployment is still fairly low.
