

European Solar and Energy Storage Solutions

The best solar panels Isle of Man

Overview

The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Isle of Man Solar is a renewable energy company offering state-of-the-art solar solutions and certified and approved installation services for many products on our website. Our fully compliant engineers will carry out all the work.

At Nexiom Ltd, we are experts in the installation of renewable energy on the Isle of Man, including solar photovoltaic panels (Solar PV), which can be used to power your home, leading to savings on your electricity bills and reducing your carbon footprint.

When investigating solar panels there are many questions: how many panels can my roof take?

what will they look like?

the price?

how much power generated?

yearly returns?

go green use technology to help answer these questions as accurately as possible.

Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar / REC and Sun Power solar modules together with SolarEdge optimisers

and inverters. Who is Isle of Man Solar?

Isle of Man Solar is a renewable energy company offering state-of-the-art solar solutions and certified and approved installation services for many products on our website. Our fully compliant engineers will carry out all the work. With Renewable energy what's to come is looking brilliant. Looking to upgrade your energy systems?

Who are Manx solar electrical?

You might be surprised! © 2019 Manx Solar Electrical Ltd. Registered in the Isle of Man No. 127 689C. VAT Registration No. 004 6877 73 The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

How reliable are solar panels?

Solar panels convert the light from the sun into electricity, with no moving parts they are very reliable a 30 year life is realistic, that means with payback averaged at 9 years, you can have 21 years of free electricity! Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity).

Do solar panels need to be south facing?

Solar panels need to be south facing for maximum exposure. Is your property surrounded by trees or buildings that may cast a shadow over solar panels - this can significantly reduce the amount of electricity generated. And, of course, is your roof structurally sound?

Not only will it have to support the solar panels but also the fixing frames.

Solar Panel Installation in Isle of Man

Even on those cloudy days in Isle of Man, the sun is still there and your solar panels will still be collecting energy. The best spot for your solar panels to be placed are, of course, in a southern exposure. That's where you have the most sun all day long. And once those panels are in place, they will do the work for you.

Solar PV

Solar panel electricity systems, also known as photovoltaics (PV), capture the sun's energy using photovoltaic cells. The cells convert the sunlight into electricity, which can be used to run household appliances and lighting. Many properties in the Isle of Man are suitable for solar PV installations and you would be surprised how much

Green Living Grant Scheme

Solar PV and Solar Thermal panels (unless stated on the applicant's MHEA) Low carbon heating alternatives e.g. heat pumps (unless stated on the applicant's MHEA) and As a responsible nation, and to protect our environment, our community and to safeguard our continued prosperity, the Isle of Man is committed to reaching carbon neutrality
