Liverpool Range Wind Farm

The Liverpool Range Wind Farm was first approved by state and federal governments in 2018. Tilt Renewables acquired the Project in 2019 and while working closely with host landowners, neighbours and the community, has continued to refine and optimise the layout to take advantage of improvements in wind turbine

technology.

Renewables Readiness Assessment: Bosnia and Herzegovina

Bosnia and Herzegovina is a self-sufficient, net exporter of electricity. However, its energy sector relies mostly on fossil fuels, in addition to hydro and a negligible level of renewables. Bosnia and Herzegovina is well endowed with renewable energy resource potential; however, the sector is still in its initial stage of development.
