Durapower To Electrify AGV Fleet For PSA Tuas Port

Durapower clinched the PSA Tuas Port AGV battery tender earlier this year, and has completed testing of its 266kWh Battery Energy Storage System (BESS) with a third-party AGV manufacturer. This successful launch builds on Durapower's ongoing efforts to advance global port decarbonisation.

Global Presence - Durapower Group

Durapower works closely with our clients worldwide to provide customised solutions for their energy storage requirements. We are constantly expanding the reach of our network which currently extends to electric automotive and energy storage sectors in countries including China, Europe, Japan, India and South East Asia.

Solar Project

Solar Array's seen on the three tiny islands of Tokelau to completely produce solar power energy. The renewable energy system comprising of solar panels, storage batteries and generators running on biofuel derived from coconut will generate enough electricity to meet 150% of the islands' power demand.
