

## European Solar and Energy Storage Solutions

# Tonga arka energy

## Overview

---

How will Tonga move away from fossil fuels?

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

How much energy does Tonga generate?

It accounts for 90 percent of its electricity generation. The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030.

How can Tonga transform its energy sector?

The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030. However, achieving these targets require catalytic investments to transform the country's energy infrastructure.

What is renewable electricity in Tonga?

Renewable electricity here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal power. Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Tonga: How much of the country's electricity comes from nuclear power?

.

Is biomass a source of electricity in Tonga?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Tonga: How much of the country’s electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.

Is Tonga a climate resilient country?

Shifting electricity production in Tonga to a low-carbon, climate resilient path. Tonga is the second most climate vulnerable country in the world. Like many other Small Island Developing States in the Pacific, Tonga’s energy source is almost exclusively imported diesel. It accounts for 90 percent of its electricity generation.
