

## European Solar and Energy Storage Solutions

# Tower crane replaces photovoltaic panel installation

## Overview

---

Are alternative solutions for powering tower cranes becoming a big business?

As contractors come under more and more pressure to reduce carbon emissions, alternative solutions for powering tower cranes are becoming big business. Boxes containing the batteries, fuel cells and mechanical devices needed to drive the tower cranes working on building sites are becoming more common around the world.

Can a battery power a tower crane?

Unlike some of its competitors, Neargrid's battery solution uses traditional lead acid batteries to provide up to 200 kVA which the company says, is enough to power three tower cranes on most European building sites.

Where can a solar tower be installed?

Three Sixty Solar says future Solar Tower projects could be installed in urban environments with limited space for renewable energy developments, as well as farmland where land use is critical for the customer's business. Mountainous terrain and island countries provide additional opportunities for the Solar Tower, the company said.

Can a diesel generator power a tower crane?

"Diesel generators have a very poor efficiency when supplying energy to tower cranes," he says. "They require frequent maintenance as well as a regular supply of diesel which requires organisation and attention from construction site managers. These tasks can be avoided when using a battery system.

What happened to the solar tower in Kelowna?

Following an early autumn storm which brought 75 mph winds and several days of extreme rain and wind gusts, on November 17, 2021 the developer reported no damage to the Solar Tower, as many in the nearby Kelowna

community were without power and closed schools for a matter of days.

Who are neargrid's biggest competitors in powering tower cranes?

One of Neargrid's main competitors in terms of powering tower cranes is Ampd Energy, a Hong Kong-based company, founded in 2014. It started out making lithium-ion battery-powered backup power supplies for hospitals and data centres. AMPD Energy's CEO Brandon Ng with an AMPD Enertainer at Tseung Kwan O Industrial Estate.
