Transilvania solar Sweden

Overview

Should solar parks be developed in Sweden?

There is huge potential to develop solar parks on the Swedish market, where large spaces can contribute to the energy transition, and where battery technology creates stability in the electricity system. Solar parks call for permits and various kinds of environmental consideration, both for wildlife and when it comes to food production.

Does Sweden have a roadmap for solar PV?

Sweden lacks a roadmap or strategy on solar PV, but there are some reports by the Swedish Energy Agency including aspects on potential, barriers, roadmaps, etc.

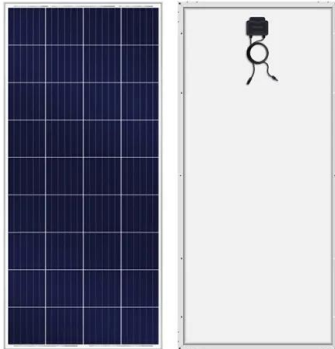

Is there a shortage of solar installers in Sweden?

Skill shortage: There is a shortage of trained installers, which could slow down the pace of solar energy adoption and implementation of renewable energy projects. Sweden has already reached its solar target in the current NECPs in force of 2.2 GW and has established a new target in its draft revised NECPs of 6.6 GW, 119% higher.
