Trina Solar Panel Company

Overview

Trina Solar Co., Ltd. (: 晶科能源) is a Chinese company founded in 1997.

Is Trina Solar a good solar company?

As one of the leading solar photovoltaic manufacturers in the world, Trinasolar delivers a smart, industry leading solution for year energy needs. Ranked as one of the world's most bankable solar manufacturers by Bloomberg New Energy Finance, Trina Solar is the manufacturer you want for your solar panels.

Where is Trina Solar based?

Trina Solar's 1.32 million square foot solar photovoltaic (PV) manufacturing facility in Wilmer, Texas is expected to be completed in 2024 and, once operational, will produce innovative Vertex modules using the 210mm large size wafer utilizing manufacturing techniques and technologies pulled from over 26 years of experience.

What types of solar panels does Trina Solar offer?

Trina Solar offers two types of monocrystalline residential solar panels: the DE06X.05 (II) and the DD06M.05 modules. Both of the PV modules use half-cut cells and come with either a white or black backsheet, enhancing their visual appeal. Half-cut solar panels are more efficient than their traditional counterparts.

Are Trina Solar residential modules reliable?

In a recent study of PV modules conducted by leading manufacturers, Trina Solar residential modules ranked highest in reliable performance under real-world climate conditions. The Trina Solar US Advantage backs every residential module sold in the U.S. with the TrinaProtect 25-year product and 25-year linear power output warranty.

How does Trina Solar work?

Trina Solar uses multiple busbars on a single panel, further improving

performance. PERC: Passivated Emitter and Rear Contact (PERC) solar cells include a back surface layer that reflects light back through the cell, reduces heat absorption, and reduces electron recombination, all of which improve panel efficiency.

How powerful are Trina Solar panels?

The company's most recent breakthrough panel achieved a maximum power output of 740.6 Watts. Alas, you won't be able to install those on your roof, but the residential panels are still adequately powerful. Trina Solar currently offers two solar panel lines for residential solutions in the U.S.: the Vertex S/S+ and the Residential line.
