Karf& Scoot, Brand of UESTCO Energy Systems

Karf& Scoot is the process safety equipment brand of UESTCO Energy Systems, established in 2006. Since its inception, Karf& Scoot has offered the best products for the safety of your personnel and equipment with industrial gas detectors and flame detectors. Karf& Scoot is expanding its portfolio with products such as gas detection control panels and gas sensors.

Hydrogen Production

UESTCO Energy Systems is a company specialised in gas applications for industry. With its multi-disciplinary approach, it successfully provides turnkey solutions and project management & consultancy services. LinkedIn . Products & Solutions. LNG ...

About Us

Guiding your energy since 2006, UESTCO Energy Systems specializes in industrial energy solutions, with a particular focus on natural gas and LPG. We offer a wide range of services, including engineering, R& D, technical consultancy, project design, and field applications. Additionally, UESTCO supplies essential technical materials and equipment

LNG Regasification Skid

Systems

UESTCO manufactures fully automated compact Regasification Systems installed on skids. These systems are equipped with vaporizers, pressure regulating unit, ex-proof automation control panel, odorizer, flowmeter and ATEX certified trim heater (for ...

R& D Activities

At Uestco, our R& D Center stands at the forefront of innovation, recognized and approved by the Ministry of Industry and Technology. We are proud to be ranked among the top 250 R& D enterprises in Turkey, a testament to our relentless pursuit of excellence and innovation. As a leader in our field, we are committed to driving scientific and technological advancements that ...

Turnkey LNG & L-CNG Stations

UESTCO designs and installs LNG & L-CNG stations with its own engineering teams and products as a turnkey project. Skip to content. Product & Solutions UESTCO Energy Systems is a company specialised in gas applications for ...

LPG Air Mixing/Blending

LPG / air mixer (or blender) is a system that mixes LPG with air in the desired ratio and gives LPG / air mixture gas (SNG) output. In facilities designed to operate with natural gas, the LPG / air mixer allows the use of LPG as a backup fuel in cases such ...

Sustainability

Our strategy includes reducing greenhouse gas emissions, optimizing energy use, and minimizing waste through innovative solutions. We also emphasize the importance of ethical business practices and transparent governance, ensuring that sustainability is ...

UESTCO Energy Systems , Liquid Energy

UESTCO is serving to many industries since 2006 with its expertise on natural gas process applications. As an all-in-one company, it has commissioned over 800+ turnkey projects and a wide range of customized engineering solutions from simple skids to ...

Green Hydrogen Solutions

Green hydrogen refers to hydrogen produced using renewable energy sources, such as solar or wind power, through a process called electrolysis. Green hydrogen could potentially play a critical role in helping to achieve net-zero ...

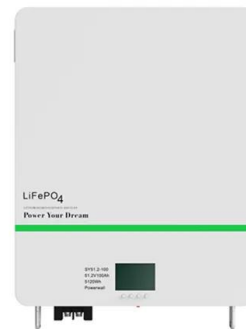

LNG Liquefaction Systems

Liquefied Natural Gas (LNG) is a critical component of the global energy landscape, providing an efficient means of transporting natural gas where pipelines are not feasible. The liquefaction of natural gas into LNG allows for a more compact storage and transportation solution, reducing its volume by approximately 600 times. This conversion plays a key role in providing a cleaner ...

LNG & L-CNG Refueling

Therefore; any LNG refueling systems should offer an excellent ease of use, as well as providing the most efficient system for low methane emission rates. Experienced Uestco team designs and manufactures the most user-friendly LNG fueling systems with state-of-the-art technology.

About Us

Guiding your energy since 2006, UESTCO Energy Systems specializes in industrial energy solutions, with a particular focus on natural gas and LPG. We offer a wide range of services, including engineering, R& D, technical consultancy, project design, and field applications.

Uestco Energy Systems

UESTCO Energy Systems is an expert in industrial gas applications, offering comprehensive turnkey solutions along with top-tier project management and consultancy services. Through its multidisciplinary approach, UESTCO ensures that every project is delivered

with precision and tailored to meet the specific needs of its clients.

Compact Skid Systems

UESTCO Energy Systems is a company specialised in gas applications for industry. With its multi-disciplinary approach, it successfully provides turnkey solutions and project management & consultancy services. LinkedIn . Products & Solutions. LNG ...
