

European Solar and Energy Storage Solutions

United Kingdom vensys energy ag

Overview

Vensys Energy AG (stylized as VENSYS) is a German gearless wind turbine manufacturer which is majority-owned by Chinese turbine manufacturer . Vensys licenses its products to several non-European manufacturers of wind turbines. In addition, Vensys itself manufactures plants on a small scale at its.

Who makes VENSYS wind turbines?

Vensys Energy AG (stylized as VENSYS) is a German gearless wind turbine manufacturer which is majority-owned by Chinese turbine manufacturer Goldwind. Vensys licenses its products to several non-European manufacturers of wind turbines. In addition, Vensys itself manufactures plants on a small scale at its headquarters in Neunkirchen, Saarland.

Who is VENSYS energy?

Vensys Energy is a leading manufacturer of wind turbines in the megawatt and multi-megawatt class. Engineering at our own head office in Germany provides the interface between continuous development and the quick implementation of its results for new VENSYS products, with development and production going hand in hand.

What is VENSYS technology?

VENSYS technology is based on the idea of generating a maximum amount of energy while minimizing losses. Our robust turbines which have stood the test of time all over the world are the first choice not only in extreme climates and where infrastructure is poor.

Who are VENSYS & Goldwind wind energy?

The Vensys group includes Vensys Elektrotechnik GmbH in Diepholz , which manufactures the electrical components, and NEVEN Windenergie GmbH in Trier, which is involved in project development. The Goldwind Wind Energy GmbH based in Hamburg has been the company's largest single shareholder since 2008 with a 70% stake.

Why should you choose VENSYS wind turbines?

VENSYS has optimized wind turbines to the smallest detail. The simple setup of the system combines high durability and operating safety, which aims at high energy yields while minimizing losses.

Where is VENSYS made?

In addition, Vensys itself manufactures plants on a small scale at its headquarters in Neunkirchen, Saarland. The Vensys group includes Vensys Elektrotechnik GmbH in Diepholz , which manufactures the electrical components, and NEVEN Windenergie GmbH in Trier, which is involved in project development.

At home all over the world

VENSYS technology is based on the idea of generating a maximum amount of energy while minimizing losses. Products Our robust turbines which have stood the test of time all over the world are the first choice not only in extreme climates and where infrastructure is poor.

Wind Turbines (Wind Energy) Equipment , Energy XPRT

About Us

Beginning at the planning stage and extending over the complete operating life of our products, customer orientation is the pervasive feature of our wind energy projects. We provide tailor-made turbine configurations and product variants for every environment.

VENSYS Energy AG , Firmen

The business segments of VENSYS Energy AG contain the development, the production and sales of gearless wind energy converters, in addition to the production of VENSYS-developed frequency converter and pitch systems. In the domain of wind turbines VENSYS offers turbines in the platform 1.5 to 6.2 MW. The latest development is the Vensys 175.
