# Units install solar power generation

## Overview

---

How long does it take to install a solar power system?

Installation of solar power system. The installation of a solar power system on your property can take anywhere from 1-7 days, depending on the availability of contractors, permits, and materials required.

How do I install a solar system?

Engineering site visit The first step to installing your solar system is an engineer site visit. After you sign a solar contract, an engineer will come by your property to evaluate the electrical status of your home and ensure everything is compatible with your incoming solar installation.

How do I choose the right size solar power system?

Evaluating your energy usage will help you choose the right size solar power system for your needs. You won't overinvest in panels but will still produce enough energy to cover your electric costs each month. Solar irradiance is the power per unit received from the sun. Essentially, it refers to how powerful the sun's rays are.

Should I add a solar energy system to my roof?

You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. While there's no one-size-fits-all solar solution, here are some resources that can help you figure out what's best for you. Consider these questions before you go solar. See the Spanish version [here](#).

How do I choose a solar panel system for my home?

Before you size a solar panel system to fit your energy needs, consider undergoing a home energy audit to uncover anything that makes your home less efficient. Switching to energy-efficient lighting and appliances or weatherizing your home may help to lessen your electricity expenses. 2.

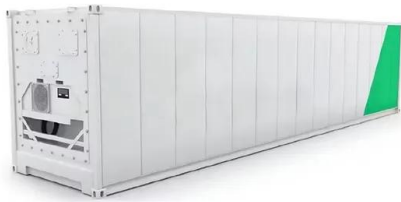

Determine if your home is structured for solar.

How much does it cost to install solar panels?

Once you calculate your materials, estimate the labor costs that come with your solar panels. Nationally, most homeowners will pay between \$251 to \$391 per panel for installation. Depending on your installation team, you might save on labor when you buy additional panels. Installation is often considered a one-time cost.
