Voyager Renewables

Voyager Renewables has been established by Copenhagen Infrastructure Partners to serve as a trusted partner to accelerate Australia's shift to clean energy. We invest in projects for the long-haul because quality projects take time to deliver properly.

Voyager Energy Partners

At Voyager Energy Partners, our seasoned professionals connect markets through the sustainable sourcing and transportation of a vast array of energy products. This includes traditional molecules such as LNG, oil and wet

gas, but does not preclude hydrogen and other renewable fuel alternatives.

Renewable energy overview in Hong Kong

Based on commercially available technologies, it is estimated that Hong Kong has a renewable energy potential of about 3-4% of total electricity consumption arising from wind, solar and waste-to-energy that can be exploited between now and 2030. In 2018, the amount of electricity generated from renewable energy accounted for less than 1% of

Voyager Renewables board

We acknowledge the Traditional Owners of the lands on which Voyager Renewables projects are proposed, and the lands on which we work and live.
