

European Solar and Energy Storage Solutions

Wattkraft energy Japan

Overview

Who is wattkraft?

5. December 2024 Wattkraft is a dedicated brand ambassador and specialises in inverters, photovoltaic modules and system integration.

Why is wattkraft important?

Its considerable international network provides the flexibility to adapt and change to an increasingly demanding market landscape. Wattkraft served for Huawei mainly the wholesaler network and Commercial Project Business in Germany, Benelux, South Europe and India.

Who is Aiko & wattkraft?

Mr. Giovanni Migliore, CEO of Wattkraft, announced a strategic partnership with AIKO, highlighting a significant advancement in renewable energy technology. AIKO emerges as a trusted collaborator, offering premium-quality products featuring best-in-class conversion efficiency (24.2%) in commercially available modules.

How will Aiko & wattkraft work together?

AIKO and Wattkraft have entered into a supply agreement following a signing ceremony held recently in Munich, which is expected to lead to a growing footprint in the European market and establish a mature and reliable supply system through extensive distribution channels.

HUAWEI LUNA2000-200KWH-2H1: The highlight in energy storage

To generate a sustainable future, the efficient electricity storage in both fields renewable energy and photovoltaik is crucial. Through establishing LUNA2000-200KWH-2H1 in the market HUAWEI FusionSolar contributes a revolutionary solution. We encourage you to check out all features and benefits of the innovative energy storage system. The comercial storage ...

Huawei inverter

HUAWEI inverters are durable, premium-quality technological marvels. High-quality engineering and optimum connectivity enable solar energy plants to work efficiently for many decades. Huawei products are constantly improved and subject to rapid technological advances

Energy storage(KWH)

102.4kWh

Nominal voltage(Vdc)

512V

AIKO and Wattkraft cooperate on the EU Market for Distributed PV

AIKO and Wattkraft have entered into a supply agreement following a signing ceremony held recently in Munich, which is expected to lead to a growing footprint in the European market and establish

Commercial portfolio

More energy, lower costs, and high reliability through smart design. The LUNA2000-200KWH-2H1 Smart String Energy Storage Solution is ideal for commercial and industrial use, providing grid support and peak shaving. With a capacity of 200 kWh and a discharge power of 100 kW, it offers maximum efficiency, flexible configuration, and easy expansion.

Wattkraft

Die Wattkraft Gruppe steht für Innovation, Expertise und ein starkes Miteinander über Ländergrenzen hinweg. Mit Standorten in Deutschland, den Niederlanden, Belgien, Italien, Spanien und Portugal gestalten wir aktiv die Zukunft der Solarenergie - gemeinsam und partnerschaftlich.

PV storage solutions from Huawei FusionSolar

Solar energy storage is crucial for maximising energy efficiency. Wattkraft offers world-class PV storage solutions from Huawei FusionSolar that are suitable for residential, commercial and industrial sectors. The Huawei LUNA2000-S1 with its modular design is ideal for private households, as it can be flexibly adapted to different energy

Treffen wir uns auf der Solar Solutions 2024 in Düsseldorf?

Wattkraft auf der Solar Solutions - In diesem Jahr vom 27.-28.11. in Düsseldorf. Wir freuen uns auf Ihren Besuch > Halle 14 / Stand B3! +49 511 - 72 75 76 00. Search for: DE. EN;

Energiespeichersysteme und Smart Energy Management umfasst. Ergreifen Sie die Chance, sich mit unseren Fachleuten auszutauschen, detaillierte ...

News

On 27 and 28 November, Wattkraft will once again be represented at Stand B3 in Hall 14. Over the years, Solar Solutions has established itself as an indispensable meeting place for experts from the solar industry. To generate a sustainable future, the efficient electricity storage in both fields renewable energy and photovoltaik is crucial

Solución Antivertido Wattkraft ZI

La Solución Antivertido Wattkraft ZI es una avanzada tecnología diseñada para grandes plantas fotovoltaicas de autoconsumo, alineada con las normativas de inyección cero. Esta solución está optimizada para gestionar instalaciones con múltiples transformadores y cumplir con los estrictos requisitos de la normativa, asegurando que la
