What is the best air conditioner brand?

The best air conditioner brand depends on your preferences, budget, and home layout. We find Lennox to be one of the best AC brands due to its high SEER ratings, smart home capabilities, and SunSource technology. However, Carrier offers more intelligent cooling options, and York builds some of the most durable and quietest ACs.

Which air conditioner has a energy star rating?

ENERGY STAR requires all of its certified central air conditioners and heat pumps to have a SEER rating of at least 15. The best air conditioner brand depends on your preferences, budget, and home layout. We find Lennox to be one of the best AC brands due to its high SEER ratings, smart home capabilities, and SunSource technology.

Which air conditioner brand is best for 2024?

Our top-rated air conditioner brand for 2024 is Lennox. We rated the company 4.9 out of 5 stars due to its energy efficiency features, varying unit sizes, and solar-powered options. It also offers high-end products that work with its units, including smart thermostats that connect to devices such as Alexa or Apple HomeKit.

Which type of air conditioner is best for your home?

If your residence already has forced air heating (and therefore ductwork), packaged or central air conditioning will be the most efficient and (relatively) least expensive option. Window units are self-contained air conditioners that come in a wide range of sizes.

What is the best energy-efficient air conditioner?

We researched the market to find the best energy-efficient air conditioners currently on the market. For an ultra-efficient central air conditioning unit, it's difficult to top the Lennox XC25. Rated most efficient by EnergyStar for 2022, this air conditioner has an outstanding SEER rating of 26 thanks to its advanced technology.
