# What can be stored in the TV cabinet

## Overview

---

In this article, we will guide you through the process of storing a TV in a storage unit. We will cover everything from preparing the TV for storage and choosing the right storage unit, to packing and transporting the TV, as well as ensuring it stays safe and secure in the unit.

In this article, we will guide you through the process of storing a TV in a storage unit. We will cover everything from preparing the TV for storage and choosing the right storage unit, to packing and transporting the TV, as well as ensuring it stays safe and secure in the unit.

Choosing the right location, cleaning and preparing the TV, detaching the stand or wall mount, protecting the screen, wrapping and packing the TV, labeling and storing it properly—all of these steps are essential to safeguard your TV from damage during storage.

You'll learn both packing and storing instructions from the manual. Elements such as humidity and exposure to warm temperatures can damage your screen. The manual will eliminate you on how to avoid all these. When packing your TV for storage, use its original box or a cardboard box that is a close fit.

To store a flat-screen TV for storage, you must dust it off with canned air and clean it with a damp cloth. Remove the cables and TV stand and clean them as well. Store the TV in its original box if possible, or purchase one online that is big enough to accommodate the TV, cushioning material and other components.

By following the steps outlined in this article, you can ensure that your TV remains in optimal condition while in storage. From determining the right storage space to wrapping the TV and choosing the appropriate storage container, each step plays a crucial role in safeguarding your TV. How to store a TV long-term?

If you're looking for long-term storage solution and want to keep your television in good condition, a climate-controlled storage unit is the better option. Storing with Shield Storage guarantees you a safe and secured storage

unit. Reserve a storage unit today with Shield Storage. There are several things to consider when storing a TV long-term.

Should I store my TV in a storage unit?

When you're downsizing, moving, or simply don't have space for your television, storing it in a storage unit is a great option. However, you can't just pack your electronics and leave it in a storage unit. Televisions can be delicate and expensive to replace, so it's important to take necessary precautions to protect them during storage.

What is the best storage solution for a TV?

The best storage solution for your television is a self storage unit. To avoid permanent damage to your TV, the best and ideal storage solution is to rent a climate-controlled self storage unit. As opposed to storing your television in a garage, renting a climate-controlled unit will maintain the pristine condition of your television.

How to pack a TV for storage?

You'll learn both packing and storing instructions from the manual. Elements such as humidity and exposure to warm temperatures can damage your screen. The manual will eliminate you on how to avoid all these. When packing your TV for storage, use its original box or a cardboard box that is a close fit.

Should you store a flat screen TV in a self storage unit?

When storing a flat screen TV, climate control is the number one self storage feature you shouldn't skip. Always store the TV upright, both during transportation and inside the storage unit.

Should I store my TV in a climate-controlled storage unit?

With a regulated storage unit, you don't have to worry about humidity and temperature damaging the inner parts and circuits of your TV. Storing your television in a climate-controlled self storage unit will prolong the functionality of your TV despite being stored for a long time.
