# What to do if photovoltaic panels do not come with warranty

## Overview

---

Solar panels generally come with two warranties: The product warranty covers the equipment and typically guarantees at least 10-12 years without fail, and the power or performance warranty often guarantees at least 90% production at 10 years and 80% at 25 years.

Solar panels generally come with two warranties: The product warranty covers the equipment and typically guarantees at least 10-12 years without fail, and the power or performance warranty often guarantees at least 90% production at 10 years and 80% at 25 years.

The product warranty provides complimentary replacement of your solar panels in case of malfunction caused by material or workmanship defects. The duration of coverage differs based on the brand and product, but the solar industry typically offers warranties of 10 years or longer.

In this guide on solar panel warranties, you'll learn: What even are solar panel warranties and what do they cover?

Which solar manufacturers offer the best coverage?

Should you purchase an extended warranty?

How to make a solar panel warranty claim. If you notice a visible defect or performance issue with one of your solar panels, your first move is to call your installer. Do NOT handle the panel or try to fix the issue yourself, as this can void your warranty.

Any reputable solar panel manufacturer will offer two warranties: a product warranty and a performance warranty. These cover manufacturing faults and guarantee a certain level of performance for your panels. How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation

companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. **What Is Not Covered by a Solar Panel Warranty?**

.

**Do solar panels have warranties?**

However, PV installers and solar panel manufacturers typically offer warranties, and most homeowners insurance covers solar energy systems from the unexpected, like fire, hail, or storm damage. **What Solar Panels Have The Best Warranties?**

.

**Which solar panels have a 25-year warranty?**

SunPower has the best solar panel warranties, with a 25-year product warranty and a power performance guarantee of 92% after 25 years. However, Panasonic also offers some of the best solar panel warranties in the PV industry, with a power performance guarantee of 90.8% after 25 years. **What Solar Panels Have a 25-year Warranty?**

.

**What makes a good solar panel performance warranty?**

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

**Are solar panel warranties transferable in a home sale?**

In most cases, solar panel warranties are transferable to the new owner in a home sale. However, some warranties are restricted to the original owner, so it is crucial to clarify this point with the manufacturer and installer offering the warranty.

**What voids a solar panel warranty?**

Beware that there are many things that can void solar panel warranties, such as altering the panels, improper installation, or faulty equipment.

Unfortunately, many manufacturers do not protect against hail, lightning, vandalism, and fire, but homeowners insurance can protect your customer's investment.
