TMM Japan is the Japanese branch of "The Mount Makers Co., Ltd", which is a manufacturer of aluminum and steel brackets for photovoltaic power generation systems. The head office and production base are located in Jiangsu Province, China. The area around the head office is an industrial zone where metal manufacturing is concentrated.

It is one of the largest professional manufacturers of photovoltaic brackets in China and the Asia-Pacific region. As a global leader in photovoltaic mounting structure product manufacturing and system solutions, Versolsolar is committed to becoming a global leader of high-end equipment and intelligent services in new energy industry.

Versol's main business includes various PV mounting and tracking system, distributed power station development, pipe corridor brackets, transportation building brackets, etc. It is one of the largest professional manufacturers of PV mounting and tracking system in China and the Asia-Pacific region.

JIANGSU FUTURO SOLAR Co., Ltd. is the world's leading manufacturer of photovoltaic brackets and aluminum profiles. It mainly produces various types of roof and ground solar brackets, solar aluminum frames and industrial aluminum profiles. What is the production capacity of photovoltaic brackets?

The company's standard industrial plant area is 30,000 square meters, and the annual production capacity of photovoltaic brackets is 6G watts. The cumulative shipment is more than 15G watts. The products are distributed in more than 30 countries and regions around the world.

How many production bases does solar power company have?

The company operates three major production bases, encompassing nearly 50,000 square meters of production area. Its main business includes various photovoltaic fixed ground mounting structure, distributed mounting structure, tracking photovoltaic mounting structure, building mounting structure, and distributed power station development, etc.

What is a photovoltaic service provider?

It is a one-stop service provider for the photovoltaic industry integrating photovoltaic support R&D, design, production, sales and project management. It is committed to becoming the world's leading safety experts of photovoltaic system.

Why is Haitai solar a top 10 PV company in China?

With total global production capacity of 8GW, Haitai Solar has been ranked as Top 10 PV companies in China in terms of production capacity and shipments. As an intelligent new energy provider, Haitai Solar will continue to promote new energy development with quality and technology development to lead the green energy revolution.

Can versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power station in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

What is the largest single unit PV project in the Philippines?

Signed the largest single unit PV project of 60MW in the Philippines. Japan's first tracker project is officially combined to the grid. Obtained title of Zhejiang Photovoltaic power generation system enterprise research institute. Signed domestic and foreign tracker projects orders over 500MW.
