Overview

We recommend requesting quotes from at least three companies.

We recommend requesting quotes from at least three companies.

What questions should you ask a solar installer?

1. Are you accredited?

Your first task is to ask the installer about their experience and credentials, including specific certifications. 2. Are your estimates trustworthy?

. 3. What panels are you using?

. 4. What battery are you using?

. 5. How long will the installation take?

. 6. Do you provide insurance?

. What questions should you ask a solar panel salesman?

Here are some of the most important questions to ask when considering solar energy installation. Before you purchase a solar panel, you will most probably engage with a solar panel salesperson. These are the top questions to ask a solar salesman. 1. How Does The Solar Panel System Work?

.

What questions should you ask a solar installer?

A good rule of thumb is to work with installers who have at least three years of experience. Ask them how long they've been in business and how many solar energy systems they've installed. In fact, ask a lot of questions, including: What modules do they use and why?

What should I include in a solar installation quote?

The quote should also include information on the incentives available to you, especially the federal solar investment tax credit (ITC), which can earn you 26% of the cost to install solar panels back as a tax credit the year after installation is complete. Here are the questions to ask about costs and savings associated with your installation:.

Should I talk to a solar installer?

“It's important you talk to an expert, and that you understand that this is essentially an open heart surgery for your house,” said John Wagner, head of sales at Custom Solar Solutions, an installer based in Atlanta. Ultimately, you'll have questions unique to your property and your project.

What questions should you ask when evaluating a solar company?

As you're evaluating solar companies, it's important to ask questions about the company, the equipment, money, the work being done, and the future. Here's how.

Should I get a solar quote from more than one contractor?

We always recommend getting quotes from more than one solar contractor so you can compare what each one offers. It's also a good way to see which one takes winning your business more seriously. Here's a detailed list of all the information you should expect to see in a solar quote:
